WELCOME

Thank you for purchasing the Great Minds Talino Charlotte Mason Curriculum. We look forward to journeying with you into finding beauty and creating beauty through the Charlotte Mason method of homeschooling.

Our goals for producing these materials include:

- To help parents to teach their children using the CM method with minimal preparation work
- To have everything on-hand and ready for students to begin as soon as possible
- To raise up readers and learners for life through the use of excellent-quality materials

The Talino Curriculum Guide covers lessons for the main subjects: Literature, Social Studies, Science, Filipino. In each Week's lessons, we have put a reminder box for doing your Riches, using our separate Great Minds Family Riches Curriculum or a collection of your choice. You will also pick your own Math curriculum depending on your child's age.

HOW TO USE THIS GUIDE

The Charlotte Mason method of education is unlike most of what we grew up thinking about education. Because we follow principles that the British educator-reformer researched and concluded in the 1800s, it requires a lot of unlearning and re-learning. But I assure you, the effort will be worth it, as we will no longer be tossed to and fro by the wind, and instead become equipped in a time-tested and proven way of educating children in a way that awakens their minds and their full potential.

This is why, in this curriculum guide, we hope to help you, as the parent-teacher, to unlearn some of our old mindsets in education, and embrace new ones based on Charlotte Mason's philosophy, one little step at a time.

GRADE LEVELS

We have created the guides following the way that Charlotte Mason categorized students:

- Students between the ages of 6 to 8, and sometimes 9, are considered Form 1
- From age 9 to 12, and sometimes over 12, the students are considered Form 2.
- From the ages of 12 to 15, they are considered Form 3.

So for Talino CM Curriculum, the rough division of grade levels can be:

Form 1 (Sets A, B, and C)

If your child is in Grades 1 to 3, pick one of these guides. We recommend starting with Set A in your first year, then move on to B and C.

If your child is in Grade 3 this year, you can do Set A, then move on to Form 2 next year.

Form 2 (Sets A, B, and C)

Form 2 is for children in Grade 4 to 6. Again, start with Set A in your first year of homeschooling in this age group.

Form 3 or High School (Sets As, B, C, and D)

Our High School guides are for Grades 7 to 10. We also include suggested books for use with older students.

Why use the same books for different grade levels?

Perhaps you are wondering why we use the same books for a student in Grade 1 and a student in Grade 3. In the Charlotte Mason method, we believe that children are born persons, and that they have the capacity to assimilate what speaks to them. This means that, even if we use the same books, a child in Grade 1 may appreciate different things compared to a child in Grade 3.

Additionally, this allows families who have kids in the same Form to homeschool them together, making for more lively discussions and shared experiences, while also maximizing the parents' time.

A note on reading level

Also, in the CM method, we believe that children are able to understand excellently-written literature. However, their mechanical skills of reading may not necessarily be at a level where they are able to read their school books on their own yet. This means that for Form 1, or Grades 1 to 3, most likely, you as the parent will have to read the lessons aloud, and then they will still orally narrate what they hear.

But if you are using this guide for a student in Grade 2 or 3 who is a strong reader, you may opt to let him read aloud some of the lessons. Do note that unless your child has already had experience reading classic books for long periods of time, it is unlikely that he will be able to read all his school lessons himself. One suggestion is you may read a page, then alternate with your child. Or, pick a few books for him to read aloud, and others for you to read aloud.

If your child already reads some of his school books himself, you will not need to add the books for reading practice. These are recommended for children who are still strengthening their reading skills and whose parents are still reading aloud all their school lessons for them.

OUTLINE OF WEEKLY LESSONS

Here we outline the contents of each Week of lessons:

Invitation to Parents

At the start of each Week, we have prepared a short invitation to ponder on a certain aspect of Charlotte Mason's principles.

Disclaimer

Although this guide includes weekly readings for parents, this is not a substitute for the parents' continual learning about the Charlotte Mason method, whether through personal research or attending trainings conducted particularly by CM homeschool providers. We encourage you to continue learning and getting involved with other CM families for training and support.

Lessons

The guide includes 36 weeks of lessons divided into 5 days per week. In the space provided at the top of each week, you can input the date that you begin that week.

The lessons are laid out in a table, and arranged in a way that adheres with CM's principle of using different parts of the brain one after the other, to keep the child's mind fresh. We have put a space in the first column for you to input your preferred time to do these lessons, but this is entirely optional. Some families do well with just checking the box as they finish the lesson.

(Also, you may opt to rearrange the order in which you do the lessons, so long as you remember to insert a different activity between reading lessons: for example, you may want to do Math, or a drawn narration, or sing a hymn and folk song in between two reading activities. But we recommend sticking to the arrangement to avoid confusion.)

Narration Prompt

Each lesson comes with a narration prompt or suggestion, to help you keep the narrations creative. Note that you can follow these suggestions as they are, or you can also feel free to switch them around.

A note on comic narration: We have utilized drawing as a way for younger students or for those who are still developing their language skills to narrate back what they have heard or read. Do note that the main goal is oral narration and we use comic narration simply as a tool. Plus, if your homeschool provider requires output for your portfolio, you may ask if these comic narrations can suffice, as they let your child tell a story without requiring a written narration, which, for a CM education, is only used for students 10 years old and above.

Mother Culture & Reflection Time

At the end of each Week, we have included a portion called “Mother Culture & Reflection Time,” which can serve as a jumpstart for a regular time to cultivate your own growth as a mother, as well as a time to pause and reflect on the beauties of the previous weeks.

Exams

We have provided exam questions according to the CM method at the back of the book. Please ensure that your students do not read the exam questions before the actual exam week. In the Charlotte Mason method, exams are meant to test what the students know, and what they don’t know. The students do not review what they have learned, and instead the exams let them simply recall what they have already learned.

We recommend you to do your exams at the end of every 9 weeks, but if your provider has a different deadline for you, feel free to adjust. However, some of the exam questions may have been tailor-made to cover the topics over the set 9 weeks (Quarter 1: Weeks 1 to 9, Quarter 2: Weeks 10-18, Quarter 3: Weeks 19-27, and Quarter 4: Weeks 28-36). If you do decide to give your exams with too much difference from the recommended 9 weeks, be sure to adjust the exam questions.

Parent Quarterly Assessment

Because homeschooling is a family affair, we added a section called Parent Quarterly Assessment, where we give you guide questions to help you evaluate your progress over the past quarter.

If you are enrolled with a provider, you may consider using this template as a guide to update your family coach of your experiences over the past quarter. If you are homeschooling independently, we hope these quarterly assessments can help you decide what areas you need to work on more and set action plans to reach these goals.

BOOKS NEEDED FOR ONE YEAR OF LESSONS

In our desire to make this curriculum accessible to as many families as we can, we have opted to use public domain books where possible. These refer to books that are no longer under copyright and are therefore available for free download as Kindle books, PDF books, or to read online.

For these public domain books, you may opt to use an e-reader, print them out, or buy hard copy books as available.

Book titles with an asterisk (*) refer to those that need to be purchased, but we have provided a free public domain option, with a link from where you can download the book. You may then read it on a device or print it out! :)

Checklist of Books We Use in This Guide:

Nature study references:

- A Naturalist's Guide to the Birds of the Philippines by Maia Tañedo et. al.

For free reads:

These are books you and your child can read for fun. A strong reader may read these himself. If not, you may still read these aloud to your child, and enjoy the bonding time

- Pinocchio by Carlo Collodi
- Little House on the Prairie Series by Laura Ingalls Wilder*
- Wizard of Oz series by L. Frank Baum
- Other living books good for ages 6 to 8

RESOURCES YOU NEED TO ADD ON YOUR OWN:

In this 36-week guided lessons, we have covered all the major subjects you need: Language or Literature, Social Studies (Geography, History, and Civics), Filipino, and Science.

But the Charlotte Mason method, a proponent of a rich curriculum, is not complete without what we call the “Riches.” These include Hymns, Folk Songs, Artist Study, Composer Study, and Handicraft. We offer this as a separate curriculum, called our **Family Riches Guides**, because these treats can be enjoyed as a family and you will only need one even if you are homeschooling several students.

We also let parents choose their own curriculum or materials for teaching your children to read, as well as their own choice of curriculum for Math.

Therefore you will need to add the following:

- Riches (You may create your own lists, or purchase our Family Riches Guide which includes hymns, folk song, artist study, composer study)
- Your own reading curriculum or materials (If your child can already read 3-4 letter words, you can practice using the reader books suggested in this guide)
- Your own math curriculum
- Your own foreign language curriculum or lessons
- Your own lessons for your chosen musical instrument
- Your own lessons for your chosen handicraft

We have prepared this table below to help you list down the materials you will choose to add to this year's lessons:

For:	I will use:
Riches	
Teaching reading	
Math	
Foreign Language	
Musical Instrument	
Handicraft	

MATERIALS AND SCHOOL SUPPLIES

Here we list the materials you will need for this school year:

- A sketch notebook for narrations
- A sketch notebook or blank-sheet journal for nature journaling
- A lined notebook appropriate to your child's age for copywork
- A History Timeline
- A large world map or globe
- Sheets of paper or a sketch notebook for picture study (also listed in our Family Riches Guides)
- A tool for playing hymns, folk songs, and classical music (this can be a phone, a laptop, a tablet, or any other player)

WEEK 1

Invitation to Parents

The Mother is Qualified

“The mother is qualified...by the Creator Himself, to become the principal agent in the development of her child; ... and what is demanded of her is—a thinking love ... (Vol 1, page 2)

Congratulations on taking this leap to homeschool your child! Sometimes as mothers, we may feel unqualified to teach our children. After all, isn't that what we believe schools are for, where teachers are trained to teach children?

First off, I would like to share this line from Pestalozzi, one of the great names in education, which Charlotte Mason quotes in her Vol. 1, Home Education. Here he emphasizes that the mother herself is qualified. YOU are qualified to become the principal agent in the development of your child! Isn't that good news?

Then he goes on to say that what is demanded of us as mothers/parents is a thinking love. A love that's not just about emotions or feeling, but a love that thinks about what's best for our children.

Welcome to your first week of homeschooling! We are happy to journey with you!

Mother Culture & Reflection Time

Congratulations for finishing Week 1, homeschool momma! We hope these end-of-the-week short readings will help remind you how important you are, as a person. We added these Mother Culture Reflections to help you focus on taking care of yourself every week, too!

=====

It is written somewhere, "A mother is only a woman, but she needs the love of Jacob, the patience of Job, the wisdom of Moses, the foresight of Joseph, and the firmness of Daniel." But a mother has not only to have all these things; she must have them all at once, often when she is quite young, and too often when she has had no previous training of any kind of the marvellously varied duties she has to perform. (Mother Culture, The Parents' Review, Volume 3, no. 2, 1892/93, pgs. 92-95)

Do you sometimes feel that so much is demanded of you? I do! And isn't it a challenge to deal with so much: a career, family life, our children's health, and finally, even their education?

Don't worry, Mamma, you're not alone. This is the purpose of these Mother Culture Reflections at the end of each week... to help you breathe in thoughts of other mothers who have gone before us, and to realign us with who we are as individuals.

Reflection:

Do I sometimes feel inadequate for all the tasks set for me?

How do I cope when things are difficult? Who or what do I turn to for support?
